PROMASTER
HARDWARE

SCHEDULING HAS NEVER BEEN EASIER

Creating schedules for hardware supply used to be an extremely complicated task. ProMaster Hardware is designed to deliver a world-class level of speed and efficiency. Now improving your scheduling capabilities and streamlining your workflow can be as simple as the click of a mouse.

“Designed to deliver
a world-class level of
speed and efficiency.”

Hardware management made easy

ProMaster Hardware allows you to manage projects easier than ever before for:

- Scheduling
- Quoting
- Installations
- Finishing
- Shipments
- Variations
- Claims

AUTOMATION IS THE KEY

Time is money, and mistakes are expensive. With any project of a reasonable size, attempting to schedule hardware quantities manually can sap valuable resources, not to mention your profits. Automation is the key to improving your efficiency, which is why you need ProMaster Hardware working for you.

Saving you time and money

ProMaster Hardware is the leading hardware scheduling software. It is designed to integrate with ProMaster Master-Keying 7 and offers many useful and timesaving features including:

- Wizards to greatly simplify data manipulation such as:
 - > Duplicate doors and their inventory
 - > Duplicate successive building levels
 - > Importing doors and other data from CSV text files
 - > Copying inventory and inventory sets from previous projects
- The ability to import inventory data including images, notes, building classes, and data sheets
- Comprehensive inventory search capabilities
- The capacity to create central inventory databases and project specific items

Improving your image

ProMaster Hardware includes attractive inventory pictures with sophisticated capture tools for professional reports and printouts. The package comes with a useful database featuring product application notes and installation sheets.

The ProMaster Hardware advantage

With ProMaster Hardware working for you, information sharing is simple and professional. You can easily:

- Send quotes, reports, and other paperwork by printout or PDF
- Manage variations with full tracking of project changes
- Export ProMaster Hardware projects to other users
- Import ProMaster Hardware projects from specifiers
- Eliminate double entry through seamless integration
- Export project data (doors, keys, and keying) to ProMaster Master-Keying 7 for coding or extending your master-key system
